

Manual Therapist On-Call Program

Anthony Medical and Chiropractic Center operates, Monday to Friday, 8:30 am to 7:00pm; Saturdays 8:30 am to 4:00pm. In order to better accommodate our patients, we implemented an On-Call Program for our Manual Therapist. It is important for us to have all shifts covered as well as have to have a therapist on-call to fill in, as needed.

We will have up to two therapists on-call on any given day. All shifts must be covered for that day before we can have someone on-call.

It is our expectation for all therapists to participate in our on-call program. Instructions will be posted in the breakroom. Therapists will be asked to write their name and shift(s) they are able to cover as well as what clinics they can travel to. Therapists will be notified of the on-call schedule.

Incentive: Therapist who are on the On-Call Schedule for any given day will be compensated the amount listed below for dedicating their time to being available. If called in for a shift, the manual therapist will be paid their normal massage rate.

Full Day Shift	Half Day Shift
\$40/Day	\$25/Day

I have read and understand the On-Call Program offered at Anthony Medical and Chiropractic Center. I am aware I am responsible to be available for my on-call day(s). If I have an emergency, I MUST NOTIFY the Lead FOC, FOC and designated therapy lead. If I am not able to be on-call or I do not respond to a call from the clinics to cover for a day(s) I am scheduled for, I am aware I forfeit my compensation and disciplinary action will be taken.
